Subject: My thoughts regarding this project

As a 30 plus year resident and home owner, I feel that the valuable space on Camino Del Mar should not be dedicated to conducting Del Mar business and should be rethought as to what would serve this community best. We are so behind in terms of community sustainability. There is no grocery store, computer resource support, and other updated services. The Plaza is a disaster at this juncture of time in terms of how it supports the village. To dedicate valuable real estate to to the bureaucracy of our village is not what sustains for the future.

Respectfully,

Stefanie Zable
