Subject: Temporary Relocation of Farmers Market to Shores Park Upper Lot

On April 7, 2016, I met with city staff and representatives of the farmers market. In anticipation of the above move, the following issues were discussed in relation to the Winston School.

We agreed that the large lower parking lot would be available for customers. There is one ADA space in the lot on 9th Street.

We also agreed that the market manager and vendors could have access to the restrooms after 12:30.

Even though the school is often in session on Saturday mornings and the campus is used for a rare event, I do not anticipate any conflicts.

I think the farmers market will add a new dimension to the Shores Park and we welcome them.
