Del Mar Fuel Reduction July 21, 2025 – August 8, 2025

Fuel Reduction Summer 2025 Report

EDCO is proud to serve the City of Del Mar and its residents with waste collection and recycling services. We are excited to summarize our most recent efforts and partnership with the Fire Department and Public Works Department on the fuel reduction program.

During the weeks of July 21, 2025 through August 8, 2025 EDCO delivered containers to residents to clear brush and create defensible space. We applaud the many residents who participated in this important program and most of all for doing their part in keeping Del Mar safe and clean.

The following is a summary of container counts and tonnage collected:

- 82 – 3yd green waste containers delivered and removed.
- 39,320 pounds of green waste/brush removed.
- 19.66 tons total.
- All 100% recycled.

On behalf of EDCO, we thank you for your continued partnership and support as we work collectively to enhance the quality of the environment in Del Mar.
